DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:
2. The closest prior art is represented by Mihara et al (WO 2004/061530) which was addressed in the first non-final rejection in the office action dated 14 August 2008.

Mihara et al disclose polymers containing repeating units of the following formula:

wherein represents the same constituents as recited in instant claim 1 [page 18 lines 1-11]. However, since the units of the above formula contain an extra -CH₂- group in the polymer backbone and are missing the claimed Z group, only an obviousness rejection under 35 USC 103(a) is available. This rejection has been overcome by common ownership of the instant application and Mihara et al as set forth in 35 USC 103(c), see Applicant's response to the non-final rejection dated 14 November 2008. The instantly claimed polymers, henceforth, are allowable over the prior art.

Double Patenting

3. The amendment submitted after final in the instant application dated 11 May 2009 in combination with amendments made to the copending application 11/165,357

have resulted in divergent subject matter of the two applications. Henceforth, the subject matter of the instant claims is no longer anticipated by the subject matter of application 11/165,357 and the double patenting rejection applied therefrom is withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
